PAGE INDEPENDENT LIVING

PAGE is a charitable, non-profit community support service organization established in 1981 to provide services to adults with physical disabilities who are determined to live independent lives. The Paula Cassin Learning Centre is PAGE's new facility for its day programs for people living with an acquired brain injury (ABI) and other physical disabilities. This PAGE art group is comprised of some of the participants from the programming at the Paula Cassin Learning Centre.

Members gather on Saturdays to create original pieces of art, which include paintings, sketches, photography and collages. All Members have an acquired brain injury and describe the process of creating art as a fun, humorous and inspiring way to help recovery. Members also say that creating their art is both peaceful and joyful. Every individual brings their own special gifts to the group and inspires creativity in each other.

Join us for a reception on Friday
February 19, 1:00pm - 3:00pm.

The exhibition runs now through Saturday, March 5,
at the Arts Etobicoke Storefront Gallery,
4893A Dundas Street W, TO, ON, M9A 1B2
